

I want to comment on how K LOVE radio serves my family and my community. The station provides clean, up lifting, encouraging music and Christian dialogue every day. It is a positive alternative to the other stations offered in my area. My friends, children, co workers and other associates also listen to this station. All of our lives are touched in a positive way because of K LOVE. I do not want LPFM to negatively effect the ability for K LOVE to broadcast the message of hope that this world so desperatley needs. I would be very disturbed to think that all of us would have to seek alternatives to this radio station should it go off the air. I have younger children that do not need to hear the foul language and graphic lyrics the other stations put on the air. Thank you for taking my comments under consideration.
